

## Network card essernet module 500 kBd for FlexES Control

---

### Part-No. FX808341

Approval: FM, EN54

Network module for up to 31 network devices. Plastic protective housing with LED displays for quick summary of the operating status.

The transmission is via Token-Passing protocol, similar to DIN 19245-1 (Profibus) with loop topology, interruption and short-circuit tolerance. Modules are locked mechanically without screws in the slots, just quick & easy. HOT PLUGGING and automatic recognition of modules just by Plug & Play, makes start-up and maintenance easy to handle.
